Description:

Cantilever arms are used mainly for the fixing of pipes directly to walls. Other applications involve fixing and constructions on ceilings and floors.

A wide range of structural designs can be created using the cantilever arms in connection with fixing rails and other components.

The cantilever arms include a removable plastic cap.

Material : Zinc plated – DX51D

ADVANTAGE:

Custom production of non-standard lengths.

Massive and stable attachment.

Wide range of dimensions and lengths.

High quality surface finish for long life.
